

# Are You a Psychologist Climbing the Early Part of the Management Learning Curve?

Do your boss and staff already expect you to know the job?

The Society of Psychologists in Management (SPIM) can help. We are seasoned psychologist managers. We've been where you are and learned how to leverage psychological knowledge into superior management. Come learn from us!

You'll have the chance to reflect on your own management journey and get advice on how to be more effective. You will learn how your psychological training gives you an edge, and how to use that edge.
